Trivia With Friends, Thursday, JUNE 10TH: Come exercise your brain and sharpen your memory by taking part in this fun group. This activity is always engaging and entertaining, as everyone in attendance offers stories and interesting facts pertaining to the trivia questions. You will have a great time, while also learning some interesting new things!

Hummingbird Perch, Friday, JUNE 11TH: *I had so many folks sign up for this class last month, that I decided to host a second one!* This sweet little perch will be a lovely addition to your hummingbird feeding station, bird feeding station, or just a nice piece of art for your garden! Using copper wire and red beads, I'll show you how to create this adorable little "rest area" for your feathered friends. Those on the waiting list from last month will be given first priority for a seat. I have enough materials for this class for 6 attendees. **Please bring a pair of regular pliers to class.**

Origami Swan, Thursday, JUNE 17TH: This is a fairly easy model, as we get back into the groove of doing origami again. Make just one or a whole bank of them!

Learning Through Documentaries, Thursday, JUNE 24TH: This month's documentary is entitled *Mysteries of Sleep*. The description of this 1-hour program, put out by NOVA, reads: *Why do we sleep? And what does sleep have to do with memory, trauma, and our emotions?*

This is sure to be a fascinating show; I hope you can join us! The program will be followed by a period of interactive conversation.

Card Making, Thursday, JULY 1ST: In this class we'll be making a pre-designed card that can be customized with numerous phrases to be used for a particular occasion. It will require some coloring. Bring your favorite colored pencils and pens if you'd like, or use the large assortment I have here.

All Linda's Craft Corner... and More! programs require pre-registration on Plainfieldrecreation.com
